

Dec-Clad Kickout

CRITICAL LEAK POINT PROTECTION

THE PRODUCT ADVANTAGE

Termination has always been a difficult detail in the decking business until now. The Dec-Clad Kickout offers the easiest and most efficient way to terminate membrane details. The metal is fastened to the existing wall and the membrane is heat welded to it. Dec-Tec sealant is then added between the top of the Kickout and wall to ensure waterproofing and great aesthetic finish.

FEATURES:

- 24 gauge G90 galvanized
- PVC coated metal makes welded terminations easy and watertight
- Color matched to our membranes
- Cut and fit on site

PACKAGING:

- Standard dimensions:
 - 3" x 1/2" x 1/2" » 8' long
- All lengths are 8'
- Flat stock sheets in colored material 3' x 8' size
- Custom profiles available (special order)
