Details:

Who is UL/ULC?

UL is a global safety certification company that evaluates a broad range of products, components, materials and systems for compliance to specific requirements. They operate under their own authority as an independent, non-governmental organization.

ULC is a member of UL family of companies, for Canadian market place. ULC is an independent product safety testing, certification and inspection organization who is accredited by the Standards Council of Canada, under the National Standards System. One of their greatest accomplishment is the prevention of accidents, the unseen contributions to public safety, health and protection of the environment are UL Canada's legacy.

Today, UL/ULC helps companies bring safer products to Canadian and global marketplace.

What does UL/ULC mark on a product mean?

UL/ULC mark means that the product have been evaluated and tested in accordance with the UL/ULC standards and requirements. Products are also evaluated continuously to make sure that they continue to meet the standards and requirements.

How does UL/ULC relate to Dec-Tec?

Dec-Tec was granted class A and class C fire rating by UL and ULC in accordance with their standard. Dec-Tec have received complimentary listing under *Built-Up Roof Covering Materials* through our membrane manufacturer.
