The unique design of our 4” and 6” Dec-Tec color matched Dec-flashings provide a variety of flashing solutions.

- Dec-Flash can be cut down the middle lengthwise and trimmed from the top, yielding 2 Dec-corners.
- A single unit can be used to create an outside corner flash.
- A single unit can be cut in half or left to right/right to left to create a pair of door sill flashings.
- Two units are used to fully wrap or “boot” typical wood column posts.
- Custom sizes can be made. Contact Dec-Tec for a quote.

Dec-Flash accomplishes the same purpose as a Dec-Corner. Dec-Flash provides a consistent and clean professional look and finish.
